_____ No, thank you, we won't be exhibiting this year.

FREE ADMISSION AND LUNCH! WHO SAYS THERE'S NO SUCH THING?

Please select boxed lunch preference:

_____ Vegetarian _____ Non-vegetarian

HOW TO CHOOSE—WHO SHOULD ATTEND...

There are five tracks this year. Please choose the track that is right for you, or mix and match sessions and workshops.

Track 1: Organizational development: A, F, K

This track focuses on sessions and a workshop that are designed to help your organization develop its capacity and better organize its resources.

Track 2: Effecting change: B, G, L

Choose this track if you want to participate in interactive sessions and a workshop with case studies and lessons learned from groups just like yours.

Track 3: Tech time: C, H, M

The sessions and workshop in this track provide valuable information on environmental monitoring including planning, design, and using your data to assess water quality.

Track 4: Managing our watersheds: D, I, N

Any group can be an effective participant—and leader—in drafting and implementing a management plan. Plan to participate in these two sessions and workshop to learn how your group can achieve its watershed management goals.

Track 5: Ecology: E, J, O

Participate in this track if you want to understand emerging issues like toxic algae, undersized culverts, and the state of New Hampshire's wildlife.

CAN'T DECIDE ON A TRACK OR A SESSION?
